

While in Louisville the other day, we dropped in at the Ladies' Furnishing establishment of Mr. John H. Cannon, No. 421, Market-street. We venture the assertion, that a more complete and beautiful stock of Bonnets, Ribbons and Millinery goods, cannot be found in Louisville; and the polite manner in which we were treated while in the house, assured us that all connected therewith were gentlemen. Frankfort merchants visiting Louisville would do well to give Mr. Cannon a call.

We are again under obligations to our friend Clarke, of the House telegraph office, for the interesting news from California, which will be found in our paper to-day.

A FAST MAN.—A Mr. Blaxton has made two bets, one for \$4,000, and another for \$500, that he would ride from San Francisco to Independence, Mo., in *twelve days*. The first three hundred miles of the journey are to be performed with a horse and buggy.

When we were in Lexington last Saturday, we had the mournful pleasure of telling our talented friend Jno. A. Haldeman Esq., good bye. Mr. H. goes to Leavenworth, Kansas Territory to practice the profession of law, and from the reputation he has already achieved, though young, we predict, for him a bright and successful future. Mr. H. will devote all of his time to his profession, and he will pay especial attention to the location of land, and the collection of claims in the territory. As a democrat, John never had his superior, and we are anxiously awaiting the arrival of the papers that will clinch the fact of his having been sent to Congress from his district.

Well John once more farewell. In remembrance of our old friendship and the happy times we have seen together, we drink 'a double health' to you.

We had the extreme pleasure of meeting with our good friend W. A. Owens, of the Owen's Hotel in Louisville yesterday evening, and we left him this morning with regret. Will is a fine fellow, socially disposed and (though our conscience forbids us to say it) handsome.—What attraction that peculiar attraction draws him to our pleasant little city so often, we cannot state with any certainty, though we think we could not miss it very much, if we were to hazard a guess.—Never mind, Will we will be down to see tomorrow and there is a great deal we have to tell you.

J. RUSSELL HAWKINS, Esq.—We are authorized to announce J. Russell Hawkins, Esq., as a candidate at the next August election for the office of register of the land-office, made vacant by the death of E. A. McCurdy, Esq.

THE POETRY OF PHYSIC. Does have always been associated in my mind with very facts and medicine has seen from the days of childhood, another word for nausea and disgust. Its remedies were the part of sickness, and pain was not so hard to bear as the revolting potions we were compelled to swallow for its relief. Dr. Ayer's preparations herald another era. His *Cherry Pectoral* is like honey on the tongue and healing balm in the stomach. His Pills! Try them—they are sweet morsels to the taste, and glide sugar-sweet over the palate, cut their energy although wrapped up, in there, and strikes with telling force to the very foundations of disease.—*Cincinnati Citizen*, O.

The election in Indiana, for State officers (Governor and Lieut. Governor, excepted) came off to-day.

CONVICTION.—The trial of William Ransill, for shooting Capt. Newton Craig, of the city, in July last, during the session of regents at Delia A. Webster, was concluded at Madison, on Friday last. Ransill was sentenced to the penitentiary for the term of three years, and fined one dollar.

JAMES O. HARRISON, Esq., has been selected by the Directors, President of the Lexington and Frankfort Railroad Company, in place of Wm. A. Dudley, resigned. Mr. Dudley has discharged the duties of the Presidency of the company for several years with credit to himself and advantage to the company. His successor, Mr. Harrison, will we, doubt not, also discharge his duties to the entire satisfaction to those whose interests are confided to his hands and to the community at large.

FAMINE PREDICTED.—The Fort Smith (Ark.) Herald learns from a gentleman who lately visited the Cherokee Nation, that it was recently reported there that a child was born in the Nation somewhere, a few days ago, that spoke in a very few minutes after its birth, predicting a famine in three years. This tale is believed by many in that country, as the prospect this season, that, far, goes to prove it to be true for the first year at least, there being little or no corn in the country, it having been cut off by the drought.

The farm and residence of Wm. A. Leavy, Esq., of Fayette county, containing two hundred and forty acres of land, was sold last week to John McMurry, Esq., of Lexington, for \$40,000 £166.66 per acre.

The trial of Dr. Graham, for the murder of Col. Loring, in New York, some months since, is now in progress in that city.

Kissane, who was arrested in Cincinnati the other day, by New York policemen, while on his way with the officers to New York, made his escape, and has not since been heard of.

Hon. J. L. Helm, of Marion county, was on Friday last, elected President of the Louisville and Nashville Railroad.

Rev. Thomas Clifton, a distinguished Baptist Minister, and formerly a member of Congress from this State, died recently in Montgomery, Texas.

HIGH PRICE FOR STANDING CORN.—A gentleman from this State bought a quantity of corn in the field, located in Ross county, Ohio, at \$35 per acre. This, says the Cincinnati Colbian, is doubtless the highest price ever paid for standing corn in southern Ohio.

It is said that an additional volume of Bartlett's History of the United States will be issued about the middle of this month.

THE FAST MAN.—A Mr. Blaxton has made two bets, one for \$4,000, and another for \$500, that he would ride from San Francisco to Independence, Mo., in *twelve days*.

THE Washington Star says that when the vagrant street preacher, impiously called the Angel Galvani, was arrested, he was searched and a large sum found upon him.

George C. Thurman, Esq., an eminent lawyer of Washington county, and formerly a member of the Senate of Kentucky, died in Springfield, on the 30th ult.

The New York Journal of Commerce gives the following satisfactory explanation of what the abolitionist mean by "free speech" and "free discussion."

IT is freedom to print forth their denominations whenever and wherever they please without interruption, and freedom to prevent any who differ from them, from exercising the freedom of speech. Everybody knows that it takes but a few rascals, if let loose, to bring fashion to crown the voice of any speaker, so as to prevent his being understood; and this is the point which the Chicago heroes have performed. The time is not distant when they will be ashamed of it.

SENATOR GEYER, of Missouri, is said to have resigned his seat in the United States Senate. The report needs confirmation.

Correspondence of the Yeoman.

LOUISVILLE, Oct. 6.

DEAR JERRY.—I have been for many weeks in a pack of troubles! lest my non-compliance with my promise might read as in my own case, the old adage, "out of sight out of mind." But man above the gulf of a state bent is willing to be forgotten by his fellow-men—especially by his betters, after the style of Louis XIV., when he was imported white from Languedoc, France by *Mauro & Key*. The gilding and the coronation, w<sup>t</sup> is executed in this country.

LEATHER FRAMES.—In the room allotted to the display of musical instruments will be found a very elaborate and artistic "leather frame," composed of a wreath of flowers, interwoven running vines all of the most delicate workmanship. The frame is the work of Mrs. A. E. Bradley, and is deserving of the highest commendation, as a work of skill and art.

VIADORE.—This is the name of a new style of ladies' bonnets of Parisian origin. It is so constructed that it can be folded and packed up into a small case of two and a half inches depth rendering it perfectly portable. The bonnet can be made in every style and turned in the very height of the fashion without impairing its character.

GRENADY.—This is the destination given to a young and popular, after the style of Louis XIV., when he was imported white from Languedoc, France by *Mauro & Key*. The gilding and the coronation, w<sup>t</sup> is executed in this country.

LEAVENWORTH AND MORNINGS.—These are the titles of two beautiful hand books, exquisitely colored crayons, by Miss E. E. V. in *vol. 1. 30*—*Sienna*—They present a collection of rich and elegant specimens of beauty and elegance.

CARVED CLOTHES.—S. C. Evans is in

exposition, specimen cloths for the use of expen-

able, the great display of which are readi-

ly to be seen at the *Metropolitan Fair*, w<sup>t</sup> is

now down on the 25th ult.

An elegant and appropriate dress for Col. P. S. T. The ancient pederasty—of Socrates, of Plato, of Aristotle—that if it was to be judged by its flowers, it was a noble tree—but it by its

fruits they will shrink of Desiderius, the inven-

tor of the wheel—Anacharis, the inventor of the pottas wheel.—That world is not nothing but words had been the result of the controversies of the schoolmen for fifty generations. That the proud

monument of Grecian greatness was the

Colossus—the Arch, &c.,—which were consid-

ered beneath the attention of the "Philosopher."

That this misdirection of the human mind ex-

isted in the middle ages—he evidenced the in-

vention of gunpowder and Printing—the man-

who was the part of sickness, and pain was

not so hard to bear as the revolting potions we

were compelled to swallow for its relief. Dr.

Ayer's preparations herald another era. His

*Cherry Pectoral* is like honey on the tongue

and healing balm in the stomach. His Pills!

Try them—they are sweet morsels to the taste,

and glide sugar-sweet over the palate, cut their

energy although wrapped up, in there, and strikes

with telling force to the very foundations of

disease.—*Cincinnati Citizen*, O.

CONVICTION.—The trial of William Ransill, for shooting Capt. Newton Craig, of the city, in July last, during the session of regents at Delia A. Webster, was concluded at Madison, on Friday last. Ransill was sentenced to the penitentiary for the term of three years, and fined one dollar.

HEMP MACHINES—Hemp Presses.—At the Mechanics' Fair we observe two fine models, one machine for breaking hemp, the other a hemp-press, invented by Jas. P. Arnold, of our city—This hemp machine was patented January, 1853, less than two years ago, and so great has been its success, that every hemp manufacturing establishment of any note in the West, either has them in operation or has ordered them.

A TOWN CLOCK.—On exhibition at the Me-

chanics' Institute can be seen a small size town clock, built by J. J. Hirschbush. It is an eight day time piece, owing two dials wherein is indicated two different times, being now arranged for Louisville and Frankfort time, designating also the days of the month and the week.

It is constructed with a real compensation pendulum which no weather will affect, thereby avoiding incorrectness in its time. The entire mechanism of the clock is of a novel character and worthy of attention.

The same party has also deposited in the hall a watchman's clock for the use of manufacturing establishments. It has five wires attached, to be constructed to as many different places of the factory where it may be designed to be used.

The object of these wires is to apprise the proprietors of any detection of duty on the part of his watchman; for should he fail to pull the wires at the proper times designated by the arrangement of the machinery of the clock, the exact hour and place will be indicated by the clock.

"A Thing of Beauty is a Joy Forever!"—The party which has also deposited in the hall a watchman's clock for the use of manufacturing establishments. It has five wires attached, to be constructed to as many different places of the factory where it may be designed to be used.

The object of these wires is to apprise the proprietors of any detection of duty on the part of his watchman; for should he fail to pull the wires at the proper times designated by the arrangement of the machinery of the clock, the exact hour and place will be indicated by the clock.

The general election on the 6th, resulted in the success of Deover and Herbert, anti-Broderick, democrats, to congress.

In the Legislature, as far as hear I from, the whigs have elected 17 and the democrats 25 Senators. In the Assembly the whigs have 35 and the democrats 45.

## BY TELEGRAPH.

EXPRESSLY FOR THE KENTUCKY YEOMAN.

### Arrival of the Northern Light.

NEW YORK, Oct. 9.

The Steamer Northern Light arrived at New York last evening, with \$616,000, and 144 passengers. She left San Juan on the 1st.

The consignees of the Northern Light are

Dunne, Sherman & co., \$242,000 to

Weil, Fargo & co., \$203,000; Drexel & co., Philadelphia, \$103,000; W. Hage & co., \$100,000; A. P. Roe & co., Philadelphi, \$75,000.

The shipments for Sierra Nevada and

Panama amounted to \$1,950,000, besides

\$70,000

## DRY GOODS!

JOHN L. MOOR

I now receive a very large and most desirable  
list of NEW STYLES of FALL AND WINTER  
GOODS, cheap indeed, and very good. He  
is led to see his old customers especially, the  
feels confident that he can please all, as  
is in price, style and quality. Sept. 1.

**MAN KNOW THYSELF.**

An invaluable Book for 25 Cents

Every family should have a copy

100,000 Copies sold less than a year

revised and improved, just issued.

Dr. Hunter's Medical Manual, and  
hand book for the Afflicted. Contain-

ing an entire medical course, and  
out of every item of disease, contrac-

ted by prominent sexual interests

by himself, or his sexual excess, with advice for their

prevention written in a similar style avoiding all med-

ical technicalities, and everything would afford the

ear of decency, and would contain two year

successful practice exclusively devoted to the cure of

a delicate or private nature.

Joseph LONGSHORE, M.D.

From A. WOODWARD, M. D., of Penn, University

Philadelphia.—"It gives me pleasure to add my testimony

to the professional ability of the Author of the Med-

ical Manual." Numerous cases of Disease and W-

ounds, Organ, and of the like, of standing, have com-

ing to perfect health, in some instances where

the patient has been considered beyond Medical aid.

In the treatment of Segmental weakness, paralytic

and convulsive diseases, &c.,

as well as every other disease, he has

been acquainted with the Author some

thirty years, and deems it more than justice to him

as well as a kindness to the unfortunate victim of evil

creations, to recommend him as one, in whose

honor and integrity they may place the greatest confi-

dence.

ALFRED WOODWARD, M.D.

"This is, without exception, the most conve-

nient, intelligible, and lucidly written book on

the subject of the diseases of which it treats.

Avoiding all technicalities, and leaving

the treatment to the discretion of the physician,

he has done a great service to the medical profession.
